Culture

" The apartments are situated in a small village Logje (500 MASL), which lies in the northwestern alpine part of Slovenia. The river Nadiža flows close to the village. The river is a tourist magnet in the summer time as people flock to refresh in the pristine waters, which are known to have healing powers. The locals claim that the water is especially good for skin and nerve related problems. The local knowledge is supported by radiostestic measurements which prove that the river has a strong bioenergetics charge which emphasizes on the 6th chakra. The apartments are situated in the pristine nature of Nadiža valley and offer a lot of active ways to spend your time. We suggest swimming in the Nadiža, hiking the surrounding hilltops of Stol, Matajur or Mija and exploring the hidden villages on your bicycle. For the more adventurous the nearby Soča valley offers great opportunities for paragliding, rafting or fly fishing. "

## Location

## Location & Access

" There are several routes to take to reach us. The best route would be to travel from the direction of Kobarid, Staro Selo and Breginj to Logje. There are many smaller roads which also lead to us, but stay on the main one, since the others are better explored on foot or by bicycle. "
